# الاسبوع الاول و الثاني Introductory lectures

اليوم الأول التعريف بالقسم و التدريس التعريف بالخطة الدراسية طريقة التدريس طريقة الامتحانات و توزيع الدرجات Communication skills

Ethics

اليوم الثاني

History taking steps and terminology in history taking

General examination

اليوم الثالث

Cardiovascular history and examination Respiratory history and examination Rheumatology history

اليوم الرابع Gastro history and examination Endocrine history and examination Nephrology history

اليوم الخامس Neuro history and examination Hematology history

#### الاسبوع الثالث History taking on surrogates

اليوم الاول

cardiovascular case history
evaluation of a patient with chest pain
evaluation of a patient with breathlessness
evaluation of a patient with palpitation

اليوم الثاني

cardiovascular case history
evaluation of a patient with chest pain
evaluation of a patient with breathlessness
evaluation of a patient with palpitation

اليوم الثالث

Respiratory case history

Evaluation of a patient with anasarca

Evaluation of a patient with cough and hemoptysis

اليوم الرابع

Respiratory case history

Evaluation of a patient with anasarca

Evaluation of a patient with cough and hemoptysis

اليوم الخامس

Gastro- case history

Evaluation of a patient with abdominal pain

Evaluation of a patient with altered bowel habits

Evaluation of a patient with jaundice

#### الاسبوع الرابع History on surrogate- tutorials

اليوم الأول

Neurology case history

Evaluation of a patient with headache- students

Evaluation of a patient with dizziness and vertigo- students

Evaluation of a patient with seizure- students

اليوم الثاني

Neurology case history

Evaluation of a patient with headache- students

Evaluation of a patient with dizziness and vertigo- students

Evaluation of a patient with seizure- students

اليوم الثالث

infectious case history

Evaluation of a patient with fever and rash- students

Evaluation of a patient with pyrexia of unknown origin- students

Healthcare related infections- students

اليوم الرابع

infectious case history

Evaluation of a patient with fever and rash- students

Evaluation of a patient with pyrexia of unknown origin- students

Healthcare related infections- students

اليوم الخامس

Gastro- case history

Evaluation of a patient with abdominal pain

Evaluation of a patient with altered bowel habits

Evaluation of a patient with jaundice

#### الاسبوع الخامس

#### **Examination skills**

اليوم الاول Vital signs Hypertension

Hypertensive emergencies - students

اليوم الثاني Vital signs Hypertension

Hypertensive emergencies - students

اليوم الثالث

General examination

Evaluation of a patient with pallor- students

Evaluation of a patient with lymphadenopathy- students

اليوم الرابع General examination

Evaluation of a patient with pallor- students

Evaluation of a patient with lymphadenopathy- students

اليوم الخامس Acute coronary syndrome Heart failure Respiratory tract infection Bronchial asthma and COPD

الاسبوع السادس
Examination skills and ECG
اليوم الأول
Precordium examination
اليوم الثاني
Precordium examination
اليوم الثالث
Chest examination
اليوم الرابع
Chest examination
اليوم الخامس
Acute coronary syndrome
Heart failure
Respiratory tract infection
Bronchial asthma and COPD
اليوم الأول
Abdominal Examination
Evaluation of splenomegaly- students
Evaluation of hepatomegaly- students  Evaluation of ascitis- students
Evaluation of ascitis- students
اليوم الثاني
Abdominal Examination
Evaluation of splenomegaly- students
Evaluation of hepatomegaly- students
Evaluation of ascitis- students
اليوم الثالث
Normal ECG and acute coronary, arrhythmia
اليوم الرابع
Normal ECG and acute coronary, arrhythmia
اليوم الخامس
Short assay exam for terminology

الاسبوع السابع
اليوم الأول
CVS history
ECG arrhythmia
اليوم الثاني
CVS history
ECG arrhythmia
اليوم الثالث
Chest examination Respiratory tract infection Bronchial asthma and COPD
اليوم الرابع
Chest examination Respiratory tract infection Bronchial asthma and COPD
اليوم الخامس
Acute pulmonary edema-students
Acute exacerbation of asthma and COPD- students

الاسبوعالثامن

**Neurol**ogy history and examination

اليوم الاول

Neuro case history

Evaluation of a patient with coma

اليوم الثاني

Neuro case history

Evaluation of a patient with coma

اليوم الثالث

Cranial nerve examination skills
Localization of brain lesions with regard to cranial nerves

اليوم الرابع

Cranial nerve examination skills
Localization of brain lesions with regard to cranial nerves

اليوم الخامس

Motor examination skills

Localization of lesion with regard to motor system

الاسبوع التاسع Hematology and oncology
اليوم الأول
oncology cases history and general examination
اليوم الثاني
oncology cases history and general examination
اليوم الثالث
hematology cases history
Approach to patient with bleeding- students
اليوم الرابع
hematology cases history
Approach to patient with bleeding- students
اليوم الخامس
Motor examination skills
Localization of lesion with regard to motor system

اليوم الاول Endocrine history cases- thyroid Summary of Thyroid diseases Thyroid emergencies اليوم الثاني Endocrine history cases- thyroid Summary of Thyroid diseases Thyroid emergencies اليوم الثالث Thyroid examination
Summary of Thyroid diseases  Thyroid emergencies  اليوم الثاني  Endocrine history cases- thyroid  Summary of Thyroid diseases  Thyroid emergencies  اليوم الثالث
Thyroid <mark>emergencies</mark> اليوم الثاني <b>Endocrine history cases- thyroid</b> Summary of Thyroid diseases Thyroid <mark>emergencies</mark> اليوم الثالث
اليوم الثاني <b>Endocrine history cases- thyroid</b> Summary of Thyroid diseases <mark>Thyroid emergencies</mark> اليوم الثالث
Endocrine history cases- thyroid Summary of Thyroid diseases <mark>Thyroid emergencies</mark> اليوم الثالث
Summary of Thyroid diseases <mark>Thyroid</mark> <mark>emergencies</mark> اليوم الثالث
<mark>Thyroid <mark>emergencies</mark> اليوم الثالث</mark>
اليوم الثالث
·
Thyroid examination
•
Diabetes type2
اليوم الرابع
Thyroid examination
Diabetes type2
اليوم الخامس — كل المجمو عات
Diabetes emergencies
Anuria and oliguria
Nephritic syndrome
Nephritis

#### الاسبوع الحادي عشر

اليوم الاول

Gastro cases history and abdominal examination

**Hepatic encephalopathy** 

اليوم الثانى

Gastro cases history and abdominal examination

Hepatic encephalopathy- students

اليوم الثالث

Rheumatology history and rheumatoid hand examination

Approach to arthritis

اليوم الرابع

Rheumatology history and rheumatoid hand examination

Approach to arthritis

اليوم الخامس

CPR

Slides physical signs

#### الاسبوع الثاني عشر و الاخير

#### MCQ and clinical exam

الاسبوع العاشر
اليوم الأول
ABG and electrolyte interpretation
اليوم الثاني
Examination skills precordium- students apply
اليوم الثالث
Examination skills respiratory- students apply
اليوم الرابع
Examination skills abdomen- students apply
اليوم الخامس
Examination skills diabetic patient- students apply

اليوم الأول
Cranial nerve examination
اليوم الثاني
Motor examination
اليوم الثالث
Hematology case discussion
اليوم الرابع
Oncology case discussion
اليوم الخامس
Gastro case discussion
e with the
الاسبوع الثاني عشر
Revision of examination skills and Clinical exam
اليوم الأول
ECG and cardiac cases discussion
اليوم الثاني
Respiratory case discussion
اليوم الثالث و الرابع و الخامس
الامتحانات الجزئية
