

BENHAZI UNIVERSITY
FACULTY OF MEDICINE
ANATOMY AND EMBRYOLOGY DEPARTMENT
POSTGRADUATE PROGRAM
COURSE OF SPECIFICATION

AIM OF TROGRAM

The program aims to provide the postgraduate candidates with the knowledge , skills and attitudes, that allow them to master the identification of gross and clinical anatomy and embryology.

PROGRAM STRUCTURE AND CONTENTS

Duration

The course must be for the three academic years

The course is divided into part 1, part 2, part 3

Course duration

Total teaching hours/week	Course duration/hours	Course duration/year
15 hrs 6 hrs L And 9 hrs P	236 hrs 152 hrs L And 84hrs P	16hrs 236hrs L and 15hrs P

CREDIT HREDIT

Credit hours /week
Credit= (1L30)
One lecture hour(L)= one credit
Three practical hours (p)=one credit

COURSE CREDIT

Department code	Course NO.	Course title	Credit hrs/ week
Ana 011	1-1	Research methodology	3
Ana 011	1-2	General embryology	3
Ana 011	1-3	Anatomy of upper and lower limbs and thorax	6

NON CREDIT COURSE

Course title	Credit hurs
seminars	3
seminars	3

Total marks (300)M

Divided into written exam, practical and oral exam

PART 2

Course duration

Total teaching hrs	Course duration/hrs	Course duration /year
15 hrs (6hrs L and 9hrs P)	248hrs (182hrs L and 66hrs P)	16hrs 248hrs L and 15hrs P

Credit hours

Credit hours
Credit=(1L3P)
One lecture hour=one credit
Three practical hours =one credit

Credit hours

Department code	Course no	Course title	Credit hr/week
Ana 011	2-1	Anatomy of head and neck, neuoratomy and abdomen	6
Ana 011	2-2	Applied anatomy	3
Ana 011	2-3	Special embryology	3

Total mark (300)M

Divided into written exam, practical and oral exam

PART 3

Candidate has to submit his/her research protocol within two months after passing part 2 under the guidance of his supervision M.Sc degree is awarded after successful completion of thesis requirements.
